NOTES OF THE WEEK.

See outside for a piece of original poetry, written for the GAZETTE by a gifted gentleman of this city. It possesses rare merit.

Good Friday is at hand, and all those who require a superior quality of Hot X Buns will do well to call at Horn's, on Hotel street. Lef The regular meeting of the Maile Social

Chib will be held to-morrow (Thursday) evening, at 7:30 o'clock, at the usual place. Call and see Mellis & Fischel's grand dis-

play of laces, embroideries, trimmings, etc., now on exhibition at the California Oue Price Barrar, Fort street. The Russian man-of-war "Dilguitt" which has been in this port for several weeks, has hauled

alongside the P. M. S. S. Co's wharf, where she is receiving coal previous to her departure, which, we are creditably informed, will be to a few days. IF The steamers Likelike, Kilaues Hou and Mokalli, owing to the prevalence of the strong trade winds, did not leave vesterday as advertised.

The steamer Likelike will leave this afternoon at 4 o'clock. We presume the other steamers will also leave to-day, the exact bour we are unable to state. Le Messrs, Williams, Blanchard & Co., of San Francisco, have informed Mr. C. Along of this city, by letter per Zealandia on the 25th ulto., that the eleanship of their like which left Hoogkong last mouth, has two bundred passengers on board for those (slands. This will be cheering news to usary

planters who are in a pillkis for laborers. for The workmen engaged in building at the Espianade the wire tramway, to be used on a plan-tation in conveying sugar to the beach, were very incorremnesses again to the beach, were very specifications by a gust of wind blowing them to see. This accident will cause some incomment to the workment has a constant of the workment between the constant of the const

THE BLACKSMITH'S DURAN .- This very pleasant and instructive exhibition will only be with us a few days longer, and we feel like urging our peopie to go and see it. The children should see the mechanism of the Biacksmith's Dream, be-cause it is instructive in its tendencies and will repay those who spare the time and the twenty-five cents to see a real work of mechanical genius.

The Honolulu Workingmen's Library Assofation met on Saturday evening, and completed their organization by the election of the following Board of Directors, viz.: A. J. Cartwright, A. S. Hartwell, Alexader Young, L. Way, J. H. Bock, C. T. Bodgers, P. Datton, J. Astworth, and A. Hepburn, The directors were authorized to inquire into the expediency of procuring a charter for the association.

We take pleasure in calling the attention of our readers to the advertisement of the Risdon Iron and Locomotive Works, corner of Besl and Howard streets, Sau Francisco, California. Tois arge and well appointed establishment is among largest on the Pacific coast, where any and all articles in their line can be had at the shortest notice, and warranted to give satisfaction.

THE ROTAL HAWAITAN CIBOUS .- The entertainment at the above establishment on Saturday evening last, on the occasion of Madame Pauline's benefit, was all that was promised, and we are glad that the torn out by the people was on a generous scale. Mr Luproil with his troup will give one more performance on Saturday evening next previous to their going to the Windward Islands. We hope Mr. L. will have a good house on Saturday evening he will give a rare show and description evening; he will give a rare show and deserves to be encouraged. Although the against him for the past week, and old boress made Laproll come down a pag or two, still George, na-danated, comes up to the scratch for a new bout with dame fortune on Saturday right. Go and see how well be gets out. We'll bet on George's pluck

Suppos Duarn. - On the evening of the Slat ulto. at about 9 o'clock, William Arkins, a native of freland, was at the Pantheon Hotel. He left the butel at the bour named, and some time in the night or early on the misreling of the lat linet, he was bound by the police lying in the street in a state of unconactorsasses. He was taken to the Station House where he died at about haif-past 8 of clock yesterday morning. The deceased was a sober, industrious young man, who came to Hono-ium from San Francisco, and worked at his trade of a blacksmith with Mr. G. West, on King street in the city. He had been complaining for some works of a pain in his side, but still attended to his work every day. He was a strictly temperate man and when he left the Pantheon hotel that evening in company with a friend he was sober, as we term butel at the hour named, and some time in the and wom or out the partners now have that evening in company with a friend he was sober, as we learn from those who saw him there. It is supposed that the decoased died from enlargement of the liver. We have had quite a number of very sudden deaths in this city of late, and all from no apparent Such occurrences about be carefully in quired into by the proper authorities.

Ma. Conswell the Aktist.-The last steamer from San Francisco brought to Honolulu, Mr. Cogswell the artist from San Fanncisco, who has come here expressly to paint the portrait of His Majesty King Haiskaus, for a friend of his Majesty is San Francisco. We had the pleasure of a short visit to the studie of Mr. C. in the Museum room in the Government Building, where he has on exhibition some beautiful specimens of his work as an artist. We noticed particularly the potentiate of Dr. Vangut and his wife, of San Pricorisco, which are admirable and worthy the highest commendation. Mr. Cogswell is an artist of the highest merit, and has a reputation in the States second to no man in his line anywhere. We understand that Mr. C. will his fice anywhere. We understand that Mr. C. with fill any orders he may receive here, and will remain to finish all such. Our people will do well to avail themselves of the presence of Mr. Cogswell to procure the floost portraits, which are the choicest beirbooms of a family. We advice our citizens to call at Mr. C's studio and examine the specimens. of his work, and he convinced that we have not ex aggerated our estimate of the artist.

Owing to the very light winds that have newsified for some time, the inter-island coasting trade by sailing vessels has been bindered very much. We heard of one case of a coasting schooner being aix days from the neighboring Island of Molokal, owing to the winds or more properly speaking an almost dead calm, during the entire sigdays. Such delays as the above will not answer a people who must use dispatch is getting their pro-duce to Honosium and a market, and the conse-quence will be the substitution of small steam vesquence will be the substitution of small steam ves-sers instead of sailing schooners. Speaking of small coasting steamers for the inter-island trade, we are of opinion that the steamers could be run on a much more economical basis, than at present. If instead of using bituminous coal they were to use authencite coal, there would be a saving on the article of facilin each case of at least thirty-three not coal. three por cent., which is a large item in a year's business and is worthy of a trial. Apart from the economy is using anthracite coal by the coasting steamers, the certainty with which steam can be generated under the most unfavorable circumstances, is another argument in layor of hard as against soft coal fuel. Upon this subject we will have more to say after a waite, when we hope to be able to give emphasis to our recommendations by facts that will convince the most ekeptical that a new departure will have to be taken upon that a new de-parture will have to be taken upon the future man-agement of the business of these Islands, both as regards the labor supply and the modes of trans-portation.

The weather during the past week has been dry and at times the atmosphere has been sultry On Thursday evening we had strong trade winds which we presume will continue, so that the fears entertained by our citizens that we were going to have sickness, which is always the result of southerly winds, have no foundation in fact. The prevalance of typhoid fever, which was attributed to the southerly winds we have had of late, and the fatallty of the disease among the native population was well estendated to starm people; but tappily the wind shifted and the trades from the north-east have driven off the dreaded disease, and the people breathe free again. We hear a good deal of com-plaint from the Windward Islands on account of the searcity of rain. A few good scaking showers just now would be a god send to our agriculturists, and especially to our sugar planters.

Pur INTO Pour in Distuuss -Yesterday mornng the Pacific Mail Steamship Company's steamer Alaska 26 days from San Francisco, bound for Hougkong, Culna, pot into this port in distress and short of coal. We did not ascertain the extent of the damage. The Alaska recountered very heavy weather since leaving San Fraucisco. Fortunately no lives were lost, nor injury sustained that cannot be repaired in a short time. The following is the ratida:

The Pacific Mail Steamship "Alaska" 3452 tons, The Pacific Mail Steamship "Alaska" \$452 tons, Wm. B. Sesburg, Commander, sailed from San Francisco March 6th at 10 15 a. m. From March 6th to March 5th had moderate gales from W. S. W. to W. N. W. with heavy sea; thence to March 21st had light variable winds and fice weather; thence to March 22d strong breeze from W. S. W. and moderate sea; March 25th heavy gale from W. S. W. and heavy sea; March 25th heavy gale from W. S. W. reering to West with violent squalls and tremendous cross sea, ahip laboring beautit; March mendous cross sea, ship laboring heavily; March 26th gale still increasing with violent squalis, sea more regular but very heavy, at 3 10 a.m. Iller band on rudder slipped, ship falling off in trough of the sea, shipping large quantities of water, breaking up guards and carrying away guard beaus, boats and house work; at 7 a.m. repaired rudder head and brought ship to the whol going dark boats and house work; at 7 a. m. repaired rudger head, and brought ship to the wind, going dead slow, and shipping large quantities of water, gale still the same; at 10 a. m. bore up for Honoluin, for cost and repairs; March 27th gale still blowing, sea more moderate; and thence to port strong E. N. E. wind and head sea; arriving at Honoluin April 1st at 8 15 a. m.

Ma. Entroa-Sir :- I perceive in your contemporary's issue of Saturday last an advertisement "To the Benevolent," and after much thought confess ! cannot see whether it means benevolence or business. Charity to the unfortunate sufferers or cheap advertising to the American Sewing Machine Co.
If it is a desirable project I shall be happy to assist,
but would like to hear others views on the subject.
Do the lepers want sewing machines.
Yours, &c., IMPORTER.
Honolulu, March St., 1879.

News Items.

QUEENSTOWN, March 9.—Colonel Pearson was at-cived at Ekows by a large force of Zulus. The ther were defeated with enormous loss and pursued Entamedia, one of the Zulus' military knale. Colume: Wood reports he has captured a large num-ber of cattle. The health of his troops is good. The attitude of native tribes in the Transvani is disquieting, and it is feared the chiefs have formed a league against the British. The Governor of Mautuis has arrived at Cape Town. The men-of-war Boudicer and Flores are at Suness bay. They have 27 cases of small-pex og board.

London, March 12 .- A correspondent at Cape fown says: Colonel Pearson after repulsing the burned Eutamedia.

A dispatch from Kimberley reports that the Zulus have burned eight kraals belonging to friendly Caffree near Doornberg, and killed the inhabitants. All fears of a successful invasion of Natal have

The agitation in Transvaal for independence has diminished, as the attitude of the tribes becomes more threatening. It is reported that Chief Seco-coral is preparing to attack Seydenburg, in Eastern

The Cape Arms publishes the following from its correspondent in the field: The Zulus now desire peace, on terms consistent with tribal independence. SEEGEDIN, March 12.-The catastrophe, for some days apprehended, occurred this morning. Aided by a gaie, the water broke through the dam and rushed in broad streams towards the town. The inhabitants are fleeing.

The Synagogue has fallen, burying a number of

people who had sought refuge in it.

A dispatch from St. Vincent says: There is immense delay here in coaling the transports carrying troops to South Africa. The facilities are altogother inadequate. The steamships Bassia, England, France, Eggpt and Spois are here, some several days, and still far from full of coal.

A dispatch from Sasgedin this morning says : After a fearful night of anxiety all efforts proved use-less. The water broke through with immense force at I a. m., carrying away a part of the railway station embankment and rolling stock. Within three hours the town was many feet deep in water. Ter-rible suffering is commencing. Shrieks and cries freight. The scene is simply heart-rending. Over 80,000 people are out of house and home. Hundreds are drawning and the water is still rising rapidly. Snegedin is the second commercial town in Hun-

gary, and has been in imminent danger the past week of inundation from the river Theiss, which flows through the lown. Several large dykes protocoing the back of the town burst, and the safety of the town depended on the embankment of the Alford Another dispatch from Szegedin, Hungary, says :

The last embankment of the river Theiss burst early this morning, causing immense destruction and it is feared great loss of life. Pasta, March 12 .- The greatest excitement is

caused here by the Snegedin disaster.

SOLE AGENTS FOR THE BAIN WAGON

DILLINGHAM & CO. 1000 CASES ELECTRIC OIL

JUST RECEIVED. EX MARTHA DAVIS,

DIRECT FROM BOSTON

For further particulars concerning Mr. Edison's was derful invention, we refer you to the Scientific American of March I, 1878; THE ELECTRIC LIGHT VS. GAS COMPANIES.—The announcement that Mr. Edison has discovered a means for dividing the electric current indefinitely, thereby making it possible to use electricity for lighting small areas, has had a marvelous effect in bringing down the value of gas stocks. The stock of the Chartered Gas Company of London, for example, has been depreciated in the market between five and ten million dollars. If we may trust a statement made before a recent meeting of the company. At an auction sale of gas stock in New from thousands are heard. Houses are crashing by the source and in many cases carying their inmates company. At an anction sale of gas stock in New York eity on the 16th of last October, shares of the New York Gaslight Company, that on September There is no gas, the works being fifteen feet in water. I fear we shall run short of food. One beat the Mannattan Company that sold for 200% in September was just going to save a large housefull of people when a fearful crash carried with it the whole living falling off in value in six weeks is to be charged entering. The saves, is simply heart-gradue. Our tright to the fear of electric competition does not sold for the company that are the same of the company that sold for 200% in September went for 149%. Whether this enormous that the company has the company that on September went for 149%. tirely to the fear of electric competion does t pear; but evidently the larger part of it is, for a similar decline is noticeable in other places. As we are not yet quite prepared to furnish ou

tomers with the "Electric Coil" in quaffer in its stead the next best thing 1000 Cases of ELECTRIC OIL

A fair Discount will be made to the Trade This splendid oil has been tested by our Government inhorizes, and we guarantee it to be fully up to the naminal test of 100°.

and no newspaper man or reporter baving said one word
in regard to it, I shall, therefore, blow my own horn. It
is only recently that Carriages have become so common
that almost every householder has got one.

IN THE SURIFITHES Carriages, or Chariots, are frequently alinded in. Upon the flight of the laraelites from
Egypt, King Pharach pursued them with six Hundred
Chariots, all of which were swallowed up by the waters
of the Red Sea. And when larael made up his mind to
pay his son Joseph a visit, Joseph telegraphed the old
gentleman to come down to Geshen and he would maet
him there and drive him down to Egypt in a Jagger
(wagos). OF NEW YORK. A I.I. PERSONS WISHING TO OBTAIN First Class Parior Organs at a reasonable price, will do well to apply to the underregimed, who is prepared to furnish, per order, an article superior in heatily and musical capacity to the celebrated.
